**APPOINTMENT INFORMATION**

Patient's Name: \_\_\_\_\_

Appointment: \_\_\_\_\_

In order to make your first visit to Allergy & Asthma Care go as smoothly as possible, we are enclosing a Patient Information pamphlet that outlines our office policies, the directions to our office, a questionnaire, and other pertinent information. **All paperwork must be completed prior to your first visit.** Please arrive at the office with the completed paperwork and your insurance card at least 15 minutes before your appointment. If you have questions concerning your medical benefits, please contact your insurance company.

Your first appointment may take approximately two hours. It generally includes a review of your medical history, an allergy-related physical examination and, depending upon your particular case, diagnostic pulmonary and allergy testing.

Some medications may need to be discontinued before your first visit. Please be sure we have been informed about all current medications at least five to seven days prior to your appointment. It would be helpful if you bring the medications for the initial office visit.

As a courtesy, we will call to remind you of this appointment, but it is your responsibility to keep the appointment. It is important that you call us 48 hours prior to your appointment to confirm due to the block of time that has been reserved for you. If you are unable to keep this appointment, please let us know as soon as possible.

Aromas and scents can be a problem for many allergic patients. We therefore request no food or beverages be brought into the office and that patients refrain from wearing perfumes, colognes or scented lotions to appointments.

If you have any questions, do not hesitate to call the office. We look forward to seeing you and thank you for choosing Allergy & Asthma Care.
